

ANUJ KUMAR

Backend Developer

☎ +91-8737056329 ✉ anuj.a87a@gmail.com 🔗 [linkedin.com/in/anujk01](https://www.linkedin.com/in/anujk01) 🌐 github.com/Anujpandey12345

Technical Skills

Programming Languages: Python, C++, C, JavaScript

Backend Technologies: Django, Flask, Django REST Framework

Databases: PostgreSQL, Redis

Frontend Technologies: HTML5, CSS3, JavaScript, Bootstrap

Tools & Platforms: Git/GitHub, Docker, Linux, Google Cloud Platform, VS Code, PyCharm, Render, Docker

Message Queues & Caching: Celery, RabbitMQ, Redis, Apache Zookeeper

Core Concepts: Data Structures, Algorithms, DBMS, Computer Networks, OOPS

Professional Experience

Backend Developer Intern

Aug 2025 – Sep 2025

CodeAlpha

Remote, India

- Developed and optimized backend services using Django with PostgreSQL, improving response time
- Designed RESTful APIs for task management system with authentication and authorization modules
- Enhanced application performance through Redis caching, reducing database queries

Featured Projects

AI Career Counselor | *Python, Django, PostgreSQL, JavaScript* 🌐 GitHub | 🌐 Live **Jul 2025 – Present**

- Architected comprehensive AI Career Counselor solution for career with multiple features which help's you in career
- Implemented secure JWT authentication and OAuth integration for enhanced security also integrate link based password resetSystem
- Optimized database schema design resulting in 50% faster query execution for academic data operations
- Integrate resume parsing, Linkdin summary, career suggestions, Upskilling paths, resume builder, and career analytics which help's the students to inhance there career

College ERP System | *Python, Django, PostgreSQL, JavaScript* 🌐 GitHub | 🌐 Live Demo **Jul 2025 – Present**

- Architected comprehensive ERP solution for educational institutions with role-based access control
- Implemented secure JWT authentication and OAuth integration for enhanced security
- Optimized database schema design resulting in 50% faster query execution for academic data operations
- Successfully deployed on Render platform with automated CI/CD pipeline and environment management

LLD Chat Server | *C++, Socket, Multi-threading, Boost::Asi* 🌐 GitHub

Aug 2025 – Present

- Built scalable multi-client chat server supporting 100+ concurrent connections using socket programming
- Implemented asynchronous I/O operations and custom protocols for efficient message handling
- Utilized multi-threading and synchronization techniques to ensure thread-safe operations and optimal performance also Provide the login feature where user can login then user access the chatroom

Education

Master of Computer Applications (MCA)

IMSEC Ghaziabad

Sep 2024 – Present

Ghaziabad, Uttar Pradesh

Bachelor of Computer Applications (BCA)

SIGNA

Sep 2021 – Jul 2024

Kanpur, Uttar Pradesh

Certifications & Achievements

Python Programming Certification – Great Learning

Dec 2023

C++ Essential Training – LinkedIn Learning

Jun 2025

Python Django Developer Certification – Simplilearn

Jun 2025

GeeksforGeeks 160-Day DSA Challenge – GeeksforGeeks

Sep 2025
